---

## Senior Software Engineer | Full stack (Back-End & Front-End) Developer

- full-stack (front-end and back-end) engineer with 4+ years of hands-on experience in developing scalable websites/applications using a wide range of front-end and back-end skills and Framework.
- interested on building software and frameworks, starting from Design & Architecture, up to implementation and test, also helping teams through my consultancy to build better software

---

## CORE PROFICIENCIES

### **Back-End-Stack**

- *Nodejs*
- *Nest js Framework*
- *Asp MVC core 5*
- *Spring Framework*
- *Laravel Framework*
- *C# , java*
- *Clean code and clean architecture*
- *RESTful APIs , Graph APIs*

### **Other skill**

- *Android (kotlin,java)*
- *Windows server*
- *Cisco network and security concept*

### **Front-End-stack**

- *Vuejs , Vuetify.js*
- *Nuxtjs Framework*
- *Reactjs*
- *HTML , CSS, Bootstrap*
- *JavaScript, Typescript*
- *Sass , Jquery*
- *Presentation layer architecture (mvp,mvc,mvvm,mvi)*

### **Tech-Stack and Principles**

- *Nginx*
- *Docker,kubernetes*
- *Database Engineering*
- *SQL Server, MySQL*
- *Redis*
- *Version Control Git with (Azure , Github Repository)*
- *System Design & Architecture principle*
- *Agile Development*
- *Test(Unit Test, E-E test)*
- *data structure and algorithm*

---

## CERTIFICATIONS & LICENSES

- Certificate of participation in project evaluation in the Technical entrepreneur's competition in November 2021.
- Certificate of participation in open-source system Conference in October 2020

---

## EDUCATION | CREDENTIALS

BSc Computer Science Sana'a University 2016-2017

## EXPERIENCE

---

**Senior Software engineer | | Full-stack Developer @ Youstudy , Sheffield UK (Remotely) 2018-Present.**

- Translated business requirements for the end user experience, and other design specifications into high-quality, production-ready code.
- Create and execute the overall website architecture.
- Design and deploy database technology to the website.
- Integrate front-end user interface with API.
- Optimize website for devices like mobiles and tablets and SEO.
- Ensure the responsiveness of the website.

## PROJECTS

---

- 1. Youstudy CRM,**
  - Build and maintained YouStudy CRM which is an online CRM system designed specifically for educational consultancy agencies.
- 2. Youstudy Online order Time**
  - Build and maintained Online Order Time which is an online food ordering system founded in UK 2018
- 3. Type Identity Framework**  
<https://www.npmjs.com/package/type-identity>
  - Type-Identity is a powerful and highly customizable authentication and authorization and access-control framework. It is the de-facto standard for securing Typescript API beta release.
- 4. exception-handler**  
<https://www.npmjs.com/package/annotation-exception-handlers>
  - Annotation-exception-handlers is a library that allows you to write a try and catch block using annotation that makes your code more arranged.
- 5. clean-architecture( ASP.NET ,Spring,node,nestjs,typescript,vue)**  
<https://github.com/saeedAlobidi?tab=repositories>
  - This structure helps you solve problems in business requirements and convert them into highly efficient code.
